

## THE CUTTING PROCESS

**1. CONNECT THE CABLE TO THE PHONE WITHOUT HAVING TO DISCONNECT DURING THE WHOLE PROCESS**

-To make sure that everything is OK, the application starts itself after connecting the phone to the machine

**2. Access the application.**

### 3. CHOOSE THE MODEL OF PHONE, TABLET, LAPTOP, WATCH, CAR, KINDLE

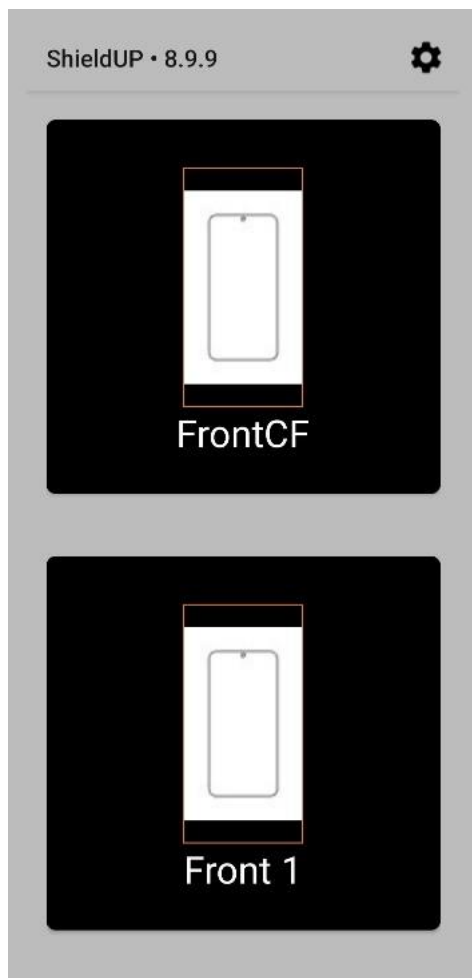

## 4. CHOOSE THE TYPE OF FOIL

- GLOSSY 200
- GLOSSY 160
- EYE PROTECTION
- PRIVACY
- MATTE
- COLOR

## 5. SELECT FROM THE APP WHICH TYPE YOU WANT TO CUT

- CASE FRIENDLY ,FRONT 1, EDGE TO EDGE OR BACK....;
- FULL BODY or PRIVACY

# PRIVACY

**Picture 1**

**Picture 2**

If you have chosen to cut PRIVACY or MATTE silicone protector after choosing the model of the device you must choose PRIVACY (if there is one for the respective model - see picture 1), if there is no PRIVACY for the model choose the standard method - see picture 2

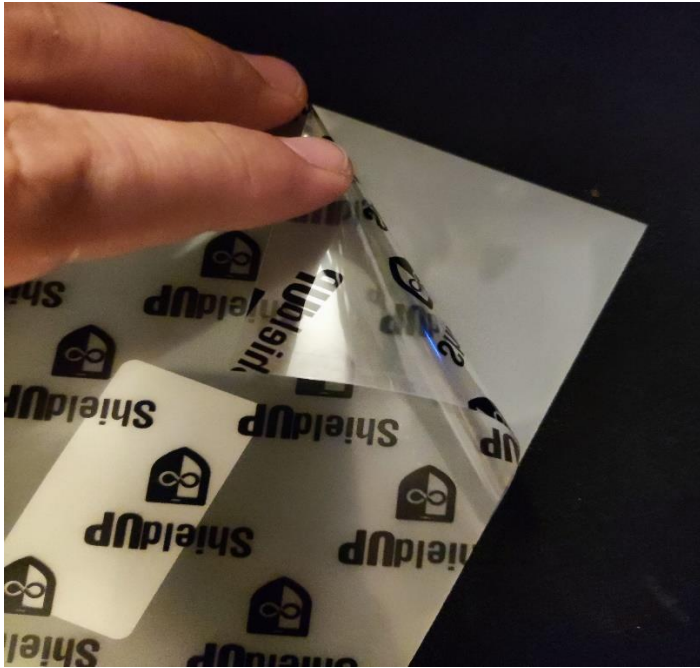

## 5. The QR code -The QRcode

must be green for perfect cutting from the machine

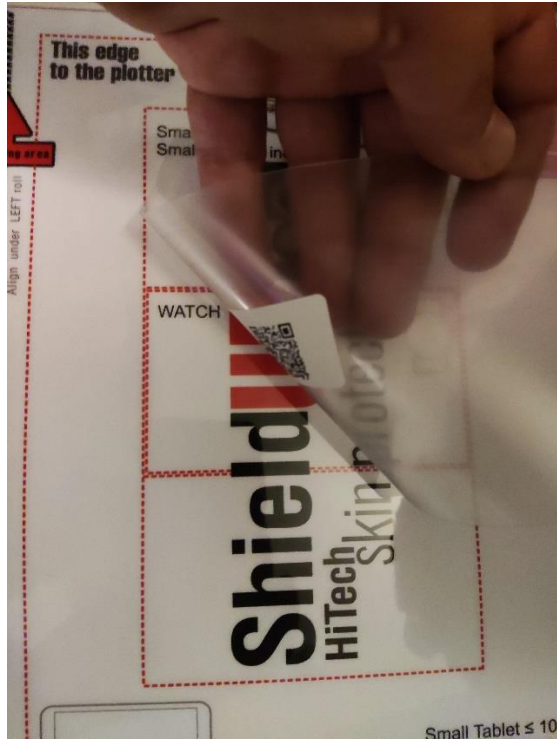

- Once scanned, the QR code cannot be used again !!!

6. BEFORE PLACING THE FOIL ON THE PAD, YOU MUST REMOVE THE PROTECTIVE FOIL (IF ANY) FROM THE OTHER SIDE OF THE QR CODE.

## 7. Apply foil on the pad with QR code down;

# YOU ARE READY TO CUT !!!
